

## **CAREMARK – USE OF PRIVACY IDs**

We work hard to protect your personal information and continue to modify our internal procedures to limit the use of your social security number when working with other vendors. As part of this process, we are pleased to inform you that as of June 1<sup>st</sup>, 2009, CVS Caremark will no longer maintain your social security number in their records for other than meeting needs to report information to the federal government.

**Therefore, it is very important to use your Privacy ID in all interactions and communication with CVS Caremark in the future.**

Please present your ID card the next time you request a prescription from your pharmacy to ensure that they have your Privacy ID number on file.

Using the incorrect number could result in your prescription being rejected.

If you have any questions, please contact your Human Resources Representative.
